

# FCI WORLD CHAMPIONSHIP LURE COURSING CSS WORLD WINNER LURE COURSING

June 29 - July 2, 2023, Kristianstad, Sweden

## Dear Delegates

### Registration of results

To be able to register results The Swedish Kennel Club demands that all dogs that haven't competed in Sweden before must send in a copy of their pedigree to the Swedish Kennel Club at e-mail address: [tavling@skk.se](mailto:tavling@skk.se)  
Please state in subject row: WCC23 + your country.

### A clarification regarding the Swedish Kennelclub rules about neutered males

By medical treatment the Swedish Kennel Club means medication, treatment with chemical substances. Chip treatment is a medical treatment. Both medical treatment and chip treatment are NOT allowed because it is regarded as doping.  
Males that have been neutered by surgical operation and cryptorchids are allowed to participate at the WCC in Sweden.

### Vaccination requirements

To compete in Sweden, SKK (The Swedish Kennel Club) requires valid distemper and rabies vaccinations.  
Only titer tests is not enough. Proof of a valid rabies vaccination not older than 3 years and proof of a valid distemper vaccination not older than 4 years must be presented.
